Our solution

Selecting Blueprint OneWorld was a simple choice for Adam Corporate. Blueprint OneWorld's user-friendly interface and customisation options were key factors. Additionally, remote 24/7 access for multiple users added flexibility. Blueprint OneWorld's reporting functionality also allowed Adam Corporate to customise this function both for internal use and for their clients.

Adam Corporate chose our hosted option meaning that responsibility for Blueprint OneWorld performance, maintenance, backup and upgrades rested with us. Our hosted service meets the highest security standards through our ISAE3402, ISO27001 and ISO9001 certified data centre.

“Blueprint OneWorld’s hosted option gives us the necessary assurance in delivering a critical application to our clients.”
